

# Noon Ghunna

Since Unicode 7 (June, 2014), Unicode documentation<sup>[1]</sup> says that U+06BA ARABIC LETTER NOON GHUNNA should be dotless in all four contextual forms. In cases where nasalization needs to be marked in initial or medial contexts, the ordinary noon, U+0646 ARABIC LETTER NOON, should be used, optionally with U+0658 ARABIC MARK NOON GHUNNA.
